

May 6, 2020 – Work Parties at La Sala

Just a bit of an update regarding our Work Parties at La Sala.

-Jeanne and I did a little pruning and weed pulling at the Grove and Entrance to La Sala in early April.

-Today I called Jason and requested an appointment with him to enable us to go in and groom the courtyard pots and vines. We had a little chat, but he could not accommodate my request. (We've been locked out since March 16th.)

-Jason will be checking on the watering of the Courtyard vines and pots, as well as the outside trees and Lantana plants,

-Joe Soto responded to my email that he and his guys would take care of weeds again this month in the Grove, and trim off the suckers on the trees.

September 17, 2019 – Removal of 30 year old Agapanthus

Digging, pulling, and bagging.

August 2019 – La Sala Grove is nearing completion

Nearly five years ago Valerie Drey had her vision for the area behind the Library and adjacent to the La Sala room approved by the City of San Juan Capistrano. This included installing and planting pots by the reflecting pool, as well as a plan for additional improvements. This was the beginning of our La Sala beautification project.

Our future plan is to plant flowering plants in the two existing planters and around each of the trees. This will be our Fall project.
